

JENNIFER SCHUCK

**Captioner, Consultant,
and Founder.**

Jennifer Schuck is a 1993 graduate of MacCormac College. Beginning her stenographic career as a judicial court reporter, Jennifer's long-term aspiration was to become a realtime captioner. After ten years of court reporting, she was presented with the opportunity to receive additional training to become a captioner. In December of 2003, she left her full-time freelance reporting position to begin captioning and founded Caption Pros in Scottsdale, Arizona.

Jennifer and her team of "Pros" provide realtime captioning in any venue, no matter how large or how small. The larger, the better! Captions should be displayed for everyone. Accessibility equals inclusivity.
